LUÍS OTÁVIO DE SIQUEIRA PIMENTEL

Full Stack Developer

+55 94 99277-3427 | Email | LinkedIn | GitHub | Portfolio

OBJECTIVE

Bachelor's student in Information Systems at UNIFESSPA with hands-on experience in full stack development (HTML, CSS, JavaScript, TypeScript, Java, Go, Next.js, Node.js and Tailwind CSS). Looking for a first job or internship in software development, combining technical programming skills with fast learning and teamwork.

EDUCATION

May 2023 - Jan 2027 (expected) | UNIFESSPA (FACSI/IGE)
Bachelor's Degree in Information Systems
Marabá, PA, Brazil

EXPERIENCE

May 2023 - May 2024 | GRUPO FASA
Office Assistant (Student)
São Domingos do Araguaia, PA, Brazil
Supported administrative and office activities, building organization, task management and communication skills.

May 2024 - Oct 2024 | COMPASS UOL
Development Intern
São Paulo, SP, Brazil (remote)
Took part in the Scholarship Program on the Back-end Development (Spring Boot) for Commerce on AWS track, 400 hours in total. Gained hands-on knowledge of back-end development with Spring Boot and AWS cloud services for e-commerce.

Jul 2024 - Present | EXCEPTION JÚNIOR
Full Stack Developer
Marabá, PA, Brazil
Full stack application development with HTML, CSS, JavaScript, TypeScript, Java and Go, building interfaces and services in Next.js, Node.js and Tailwind CSS. Built the PPMAC website, an institutional landing page with news pages, contact forms and an about section.

Dec 2024 - Aug 2025 | UNIFESSPA
Extension Project Instructor
Marabá, PA, Brazil
Instructor for the extension project "Computer Assembly and Maintenance: Minimizing Environmental Impact in the Digital Era" (960 hours in total), training more than 30 students in assembly, maintenance and responsible disposal of computer equipment.

PROJECTS

2024 - Present | PPMAC
Institutional Landing Page (Website)
Institutional landing page with news pages, contact forms and an about section, built with HTML, CSS, JavaScript, Next.js and Tailwind CSS.

2024 | SOSQUEIMADAS - MARABÁ
Software Registration (INPI)
Program written in Swift, with a Certificate of Registration from the Brazilian National Institute of Industrial Property (INPI, process BR512024003985-6), co-authored with a development team.

Nov 2025 - Jan 2026 | DEAD HAND
Solo Game - Godot Engine
Retro-style Blackjack game with quick matches, strategic decisions and high-tension duels. Built solo in the Godot Engine and published on Steam.

Sep 2026 | ATESTAVET
Cross-platform App - Flutter (Website)
App for Android, macOS and Linux that fills in and generates standardized veterinary brucellosis and tuberculosis certificates as PDFs. Works offline, syncs documents to the cloud with Supabase and builds the monthly report for ADEPARÁ automatically. Built solo in Flutter and Dart.

Oct 2026 - Present | SLATE
Desktop App Suite - Rust
Four desktop apps for making videos, built solo in Rust with egui and FFmpeg, with 140+ automated tests:

- **Slice:** video editor with a multi-track timeline, keyframes, color adjustment and MP4 export
- **Echo:** voice recording and editing, with noise reduction, loudness normalization and a teleprompter
- **Quill:** script editor that shows speaking time and exports subtitles (.srt)
- **Hue:** painting with layers, brushes, selections and filters

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java, Go, Swift, Dart, Rust, GDScript

Frameworks and Tools: Next.js, Node.js, Tailwind CSS, Spring Boot, Flutter, egui, FFmpeg, Supabase, Git, GitHub, GitLab

Cloud: AWS (EC2, S3, CloudFront)

Other: Network administration, computer assembly and maintenance, game engines, agile methodologies (Scrum, Kanban, XP), data modeling (UML), cyber security fundamentals

SOFT SKILLS

Teamwork, effective communication, problem solving, proactivity and adaptability

LANGUAGES

Portuguese: Native | English: Advanced
